

Instrumental Music in Year 7

At Mt Maria Music, we truly believe that everybody has music in them, and we work with students to take that music and create musicians!

Beginner Band Program:

Thanks to the vision of our Leadership team and generous support of our P&F, Mt Maria College offers an exciting Year 7 Beginner Band Program.

The program enables students to participate in band rehearsals, learn in instrument-specific small group lessons, and use a school-owned instrument for the entire year. Students who are involved in the Beginner Band not only gain a music education, but form important friendships and learn skills that translate into the classroom and onto the sporting field – teamwork, time management, self-discipline, critical analysis, enhanced coordination and self-confidence.

The philosophy of the Beginner Band Program is to produce well-rounded musicians and kickstart their musical journeys.

Continuing Instrumental Music Program:

We know that many Year 7 Students have already started learning an instrument, or participated in choir, at primary school. Encouraging these students to continue their involvement in Music at Mt Maria is a priority!

Core Ensembles that students can join are College Choir, Wind Band and Mt Maria Strings. When ready for an extra challenge, students may be invited to join our Extension Ensembles - Vocal Ensemble, Studio Band or Chamber Strings.

To enhance their musical education, all students are welcome to join our Community Ensembles – Guitar Ensemble, Percussion Ensemble and Uke Group.

Mt Maria Music is very proud to offer individual or small group tuition in Strings, Woodwind, Brass, Percussion, Piano/Keyboard, Singing and Guitar. Our Instrumental Instructors are exceptional people who teach and perform all over Brisbane.

If you wish to discuss anything related to this exciting program or Instrumental Music in general, contact Alex Khafagi at the College via her email akhafagi@bne.catholic.edu.au.
