

Dear parent/guardian

We are excited to announce that our school is participating in the “Resilient Schools Program”; a federally funded initiative through [Bullyproof Australia](#), for the introduction of the AMAYDA Resilience Program into 40 schools in Queensland.

Bullyproof Australia is a not-for-profit organisation dedicated to education in conflict management, good mental health and academic improvement utilising face to face training and a new support App called Mentor™. This ten-hour program will be delivered during school hours, by the teachers and is funded by Bullyproof Australia.

We recognise that bullying occurs in our community, impacting the mental, emotional, and physical health and wellbeing of our children. Mt Maria College wants to take positive and proactive steps to empower them in managing this challenge. We are very excited that our school has been selected to participate in this program, and are optimistic that our school community, students, and staff will be better for the experience.

For students to participate in the program, parent/guardian consent is mandatory.

Please register your child for the program by accessing the consent form [from this link](#) and following the prompts. Should you have any issues in registering, please email: [support@bullyproofaustralia.org.au](mailto:support@bullyproofaustralia.org.au)

Kind regards

Ian Sweeney

Acting Assistant Principal - Students
